June 5, 1995

TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Kell's Mine, S/049/017, Utah County, Utah

Date of Inspection: June 5, 1995
Time of Inspection: 8:00am to 8:45am
Conditions: Clear
Participants: Brian Light, Operator; Will Stokes, SITLA; and Lynn Kunzler, DOGM

Purpose of Inspection: Inspect Final Reclamation.

Upon arrival at the site, Mr. Light briefly discussed his State Lands lease boundary and the mining activity that he conducted. We then examined the site where he had set up a temporary building.

The area has been cleaned up with all buildings and garbage having been removed. With the exception of a small fire ring (It appeared that a portion of the area is used as a hunting/fishing camp at times), and the access road (pre-existing), all disturbed areas have been reclaimed. Vegetation cover was approximately 90% in the area where the building had been located. It was apparent that the reclamation standards of Rule R647-3-109 have been successfully met.

It is recommended that Mr. Light be released from any further reclamation obligations at this site and that the file be closed.

Several photos were taken to document site reclamation.
